

CSCE 190

Assignment Name: Teammate Finder

Group Name: CSCE 190 Group #1

Problem statement:

Video game players, new, and seasoned alike, feel there are limited resources to facilitate connecting with like minded players. Our solution will make it accessible for video game users to find people to enjoy these games with, either for recreational or competitive purposes.

What is the Problem?

People do not have the preferred teammates to play games with.

Who is experiencing the problem?

People who do not have friends that match their videogame or teammate preferences.

Where does the problem present itself?

The problem presents itself online.

Why does it matter?

People need an easy and quick way to find reliable, good teammates.
